

PROTECT IT WITH

RUBBER OR URETHANE

TUFF-TUBE® URETHANE SPOUT LINERS & ELBOWS

Sioux Rubber & Urethane manufactures an innovative wear-resistant, seamless, polyurethane spout liner into any size, diameter, up to 40' lengths for new or existing spouting applications. This exciting new product called Tuff-Tube® is a replaceable slip-in urethane liner that counters material wear to spouting. Saving time, money, extending useful life of equipment and reducing downtime. Worn liner can be rotated 120° - 180° to present additional wear surface. Completely used liner can be removed and replaced using the same spout. For more information or to see a video of just how easy installation of the Tuff-Tube® liner is visit the Tuff-Tube® website at www.tuff-tube.com

Tuff-Tube is effective and convenient for spouting applications including:

- Agriculture
- Frac Sand
- Aggregate
- Mining
- Fertilizer

Conveyed material can't force itself under lining:

- Eliminates peeling up
- Buckling
- Plugging
- General spout failure

Lined spout elbows:

- Urethane liner permanently bonded to elbow
- Available with and without tapered leading edge
- Matches up with Tuff-Tube liner for total spout protection
